

PETEX

SEAMLESS INTELLIGENCE, GLOBAL IMPACT

2026 User Group Meeting

AGENDA

IPM - Monday 4 - Friday 8 May 2026

DOF - Monday 11 - Wednesday 13 May 2026

WELCOME TO THE 32ND ANNUAL PETEX USER GROUP MEETING

The main purpose of the meeting is to maximise the value that can be gained from using the IPM, DOF and MOVE suite of tools. This will be achieved during the meeting by the following:

- a review and discussion of the latest developments of each product;
- a proposal of the development plan for the next twelve months;
- presentations and discussions of various innovative and useful technical topics related to the use of the PETEX suite of tools;
- allowing client presentations to showcase and share knowledge and experience with other organisations in similar fields.

During the meeting there will be a number of presentations from the user community. We wish to thank the presenters for their contribution to this event. These technical presentations have proven to be both informative to the other participants, as well as an excellent way for companies to share and expand their technical knowledge.

All the user enhancement requests have been included in a separate brochure for your reference, which is also available on the meeting platform. Based on the discussions during this meeting, a list of development priorities will be published shortly afterwards. Along with this development plan, copies of the main presentations will be published on the PETEX user area of the web.

We thank you for attending and hope that you enjoy the event.

FULL SCHEDULE: 4 - 8 MAY AND 11 - 13 MAY 2026

Date	WEEK 1	
Monday 4th May	Advanced Integration & PE Limited AI Drive	RESOLVE
Tuesday 5th May	Integrated Modelling: Fluids, Reservoirs and Wells	PROSPER / PVTP
Wednesday 6th May	Flow Assurance and Integrated Modelling	GAP / GAP TRANSIENT
Thursday 7th May	Reservoir Integration and Geological Modelling (including MOVE)	MBAL / REVEAL
Friday 8th May	Reservoir Integration and Geological Modelling (including MOVE)	REVEAL / MOVE
Date	WEEK 2	
Monday 11th May	Summary of latest DOF developments along with Client and Petex case studies	Model Catalogue IFM IVM
Tuesday 12th May	Clients and Petex case studies	Model Catalogue IFM IVM
Wednesday 13th May	Value driven use of DOF - Client and Petex	Model Catalogue IFM IVM

IPM - MONDAY'S AGENDA

MONDAY 4 MAY 2026

9am - 12noon **Introduction to the User Meeting**
